CAREER OBJECTIVE

To secure an internship position where I can apply my academic knowledge, technical skills, and creativity to contribute to innovative projects while gaining valuable hands-on industry experience.

EDUCATION

Bachelor of Technology (B. Tech) – Computer Science and Engineering
Narasaraopeta Engineering College, JNTU Kakinada
2023 – 2027

TECHNICAL SKILLS

Programming Languages: HTML, CSS, JavaScript, C, Python
Tools & Technologies: VS Code, Android Studio, MS Office
Web Technologies: Front-End Development, Back-End Development, Responsive Web Design

PROJECTS

Skill Swap Hub

- Developed a web platform that enables users to exchange skills with one another.
- Designed and implemented an interactive user interface using HTML, CSS, and JavaScript.
- Focused on smooth navigation, usability, and user engagement.

Online Job Application System

- Created a multi-page web application for online job submissions.
- Designed structured forms with proper navigation and validation.
- Ensured responsive design for compatibility across multiple devices.

Trade Flow

- Developed an enhanced version of the Qwipo website focused on improved trade flow and workflow management.

- Optimized UI/UX and website structure for better performance and usability.

- Implemented front-end features using HTML, CSS, and JavaScript.

Virtual Pet Simulator

- Designed an interactive Virtual Pet Simulator website allowing users to feed, play, and care for a virtual pet.

- Implemented dynamic behaviors using JavaScript for real-time interaction.

- Focused on engaging design and interactive user experience.

E-Gram Panchayat Website

- Developed a web application to support digital management of Gram Panchayat services.

- Included features to display village information, services, and public announcements.

- Aimed to improve transparency and accessibility of rural governance services.
